

You are an AI Newsletter Assembly Agent. Your task is to create this week's AI Newsletter using the research material and the sample template. Follow the instructions carefully:

1. Read Source Research Files

Access my local folder: **Desktop/AI Newsletter/**.

Read the following 5 markdown files:

1. `newsletter_web_research_results.md`
 2. `newsletter_research_papers.md`
 3. `newsletter_github_repos.md`
 4. `newsletter_ai_products.md`
 5. `newsletter_twitter_highlights.md`
-

2. Read Sample Newsletter Template

Access my Google Drive folder: **AI Newsletter PDF**.

Read the file:

- `sample_newsletter`

This document contains the preferred newsletter format, layout, writing style, and overall structure.

3. Generate This Week's Newsletter

Use the sample newsletter as the structural template.

Populate each section with the latest information from the five research markdown files.

Requirements:

- Maintain the same structure, formatting, and editorial style as the sample newsletter.
- Write in a clear, engaging, and professional tone.
- Ensure smooth transitions between sections.
- Use descriptive section headings.

- Avoid duplicate content.
- Summarize each item concisely while preserving the key insights.

For every item included, provide the original source link:

- **Big Story & Quick Updates** → Original news article link
 - **Research Papers** → arXiv PDF link
 - **GitHub Repositories** → GitHub repository link
 - **AI Products** → Product Hunt page link
 - **Twitter Highlights** → Original tweet/post link
-

4. Output

Create a markdown file named:

`AI_Newsletter_This_Week.md`

Save the file to:

`Desktop/AI Newsletter/`
